Phone conversations are **CAPTIONED** (like TV) on the screen, so you never miss what is being said. **WORDS MATTER !!!**

**AMPLIFIED HANDSET
SPEAKERPHONE
LARGE TEXT AND BUTTONS**

You keep and use all of your current phones.
The captioned phone uses your own phone service and your own Internet service.

Talk like you normally talk.
Listen as best you can.
Read what you missed.

To qualify, an individual needs three things:

You **MUST** have hearing loss.

You need a home phone line.

You need Internet access (for the captions).

If you qualify, call me. We'll schedule a time. I'll come out, install the phone, and teach you how the service works.

The service is **completely funded** through the **Americans with Disabilities Act of 1990** (Title IV).

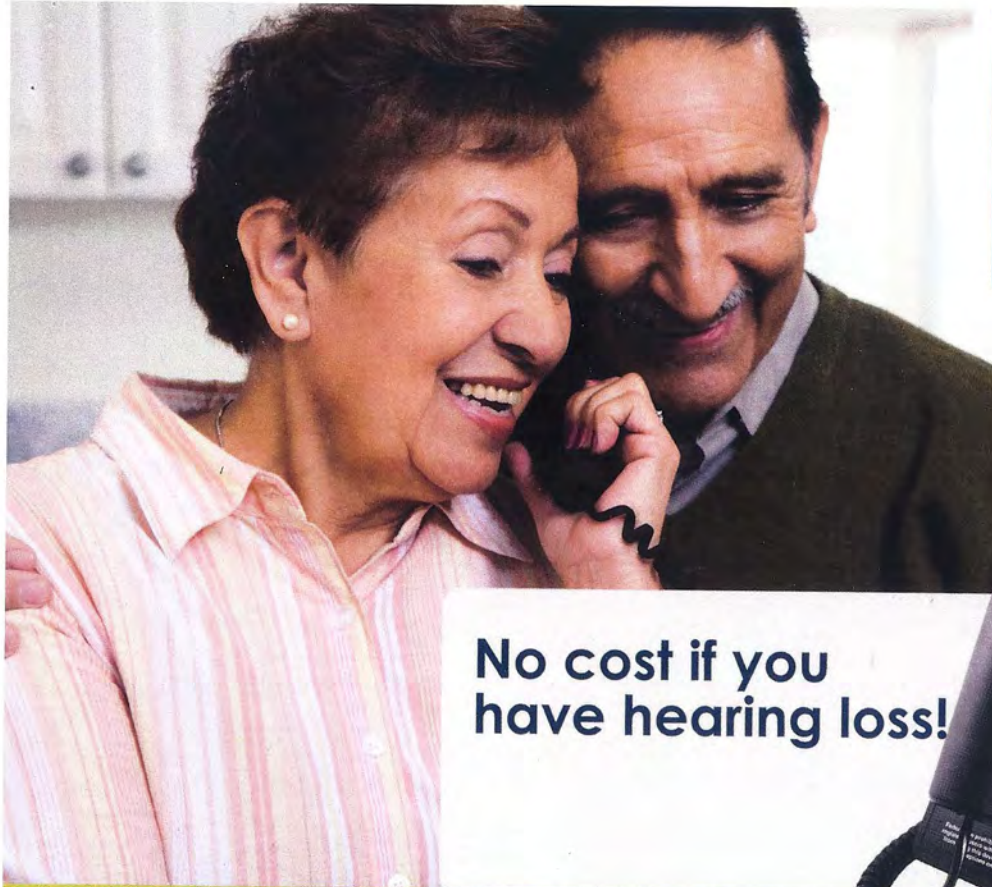

There is **never any cost** for an individual **with hearing loss**.

There are **no upfront fees**. There is **no monthly charge**.
